

# Great Rewards

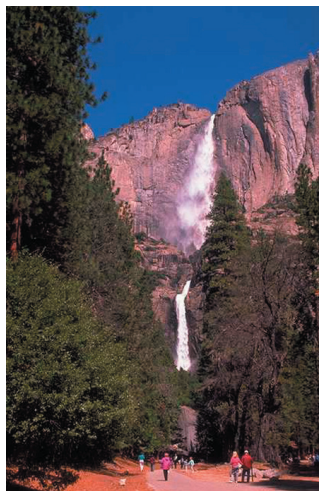

## Location and Lifestyle

Livermore is 40 miles east of San Francisco, where the fabled West Coast Lifestyle is easy to appreciate and enjoy. The Bay Area and California are recognized worldwide for surf-to Sierra landscapes, adventure destinations, great food and wines, unique attractions, and one of the kindest climates on the face of the globe.

Skiing, golfing, tennis, water sports and boating, wilderness hiking, horseback riding, general aviation flying — all are here in abundance. In the High Sierras, lie the grandeurs of Yosemite, Kings Canyon, Sequoia National Parks, and unmatched powder skiing. Visitors test their luck at the popular gaming resorts rimming Lake Tahoe.

The Golden gate Bridge links San Francisco to Northern California destinations such Napa's wine country and Marin County.

Yosemite National Park provides unmatched hiking and challenging climbing.

## Total Rewards

The advantages of working at Lawrence Livermore take five forms: Pay, Benefits, Awards & Recognition, Work-Life Balance, and Career Development. The collective value of any employee's Total Rewards package can be uniquely tailored to his or her career path and personal goals.

Many employees pursue advanced degrees partially or wholly funded by LLNL. Distance learning arrangements with UC Davis, UC Berkeley, Stanford, and UCLA can often bring the classroom right to the Laboratory.

The UC Davis Instructional Television Program offers interactive courses in computer science, electrical and computer engineering, and many other programs. Employees may enroll under one of three options: Continuing, Open Campus, or Audit. UCD also offers Graduate Certificate Programs.

Beaches in Monterey, Santa Cruz, Marin Headlands, and Point Reyes National Seashore offer year-round day-trips, beachcombing, and wetsuit surfing.

Job satisfaction ranks high at LLNL. Lab employees know that they help solve complex technical and scientific problems, contribute to Homeland Security, advance science in the national interest, and participate in the world's most innovative research.

Lawrence Livermore National Laboratory is located in the San Francisco Bay Area, close to world-class entertainment and recreation.

Skiing in the Sierra Nevadas is some of the best in the world at numerous resorts.
